#### ENGLAND'S FARM ILLS.

When crippled little Philip Snowden stood up in the British Parliament to announce a pending increase in the rate of sigh." taxation on British land values, he brought one step farther meal. Said Coppy, "My, how good other surpirse in the next story.) along a process that began about the time that Napoleon was sailing down to St. Helena.

The tax increase, of course, was devised to gain more revenue for the government. One of its chief effects, however, will be to turn the screws a little more tightly on the landed proprietors whose vast estates have given a tone to English civilization since the days of Elizabeth

Taxation has been ruining the landed gentry. Each year some of the old, established families quit the manor houses where they and their forebears had lived for two or three centuries and seek cheaper and less pretentious quarters. Some of the estates are subdivided into small holdings. Some are bought by the post-war rich; some pass to wealthy Americans. It is quite certain that Snowden's new tax, if it goes through, will still further narrow the steadily-shrinking cir- mental. cle of landed aristocrats; and as this class vanishes, the English civilization that we have known, and that our civilization stems from, must take an entirely new tack.

Yet it was not the World War, with its accompanying financial burdens, that started the landed gentry on the downword path. As much as anything, it was the steam en-

Until the time of the Napoleonic wars, England was primarily an agricultural nation. The landed gentry were, in essence, large-scale farmers. They set the tone for the nation because of that fact. They were a sturdy ruling class, made secure by the unwavering stability of land values and of the price of farm produce.

Lasalle, Ill., May 6—(UP)—Arlene threatened to kill him. They septarted when she fell from a wagon after the horses had because of that fact. They were a sturdy ruling class, made that f of farm produce.

Then, a little more than a century ago, the mechanical age began to develp. England discovered that she had enormous coal deposits. Factories and factory towns sprang up like boom towns in a new Texas oil field. Ships began to carry English manufactured goods to all quarters of the earth bringing raw materials-and, especially, bringing back wheat and corn and meat from countries where these things could be grown more cheaply than in England.

The bottom fell out of agriculture. From that moment, though no one realized it, the land gentry began to decline. They had no place in a factory era.

Now their decline is all too visible. The terrific taxation England has suffered since the war has hastened their dis- the Council of Workmen's and Solpersion. Snowden's new plan will knock some more old diers' Delegates at Petrograd after families out of their ancestral estates. But the job really be-|the czar had been overthrown gan a long time ago. James Watts, and not Snowden, is primarily responsible.

### DEFLATION OF OIL.

Oil interests are battling against deflation, and for some time the battle has been in vain. We had a fast ride during the war and for a long time thereafter, and we have been hopeful of keeping up the pace. A generation of workers has come into fields of activity without ever having known anything else. Some of us who can measure with conditions prior to war inflation have a better idea of what possibilities lie behind deflation and may be the more resigned to a return to normalcy.

Generally, though, we are disposed to try to hang on as we try to hang on to life itself when time is up. Deflation comes first to elementary products, from the soil and from the mineral deposits. Agriculture, coal, and oil have felt the pressure of economic forces driving back to normalcy. Railroads have been compelled to enforce tremendous economies, but they can not yet be said to have deflated, for they have not been able to pass those economies on to the people. The savings have been absorbed in operating expenses before THE Zurich Participating they have been effected.

The sooner we acknowledge that the war is over and that we can not forever maintain artificial and inflated values, the sooner we shall get goods moving in channels of fair ex- lar full-coverage collision change, which is necessary to continued industrial activity. premium. You agree to take

#### Places Stress On Every · Citizen Working And Saving

Washington, D. C., May 7- The worst of the depression is over and the time is at hand when the nation can really begin to rebuild its economic life. That was the belief expressed by Rome C. Stephenson, President of the American Bankers Association, in a talk on "Saving Your Future," last night. The talk was broadcast on the Halsey, Stuart & Co., program as one of a series of talks on present conditions by outstanding leaders of American business, industry and finance.

Mr. Stephenson said he could not conscientiously predict that the return of prosperity was actually in sight, but he did feel that the general situation had taken a turn for the better.

In the course of his talk, Mr. Stephenson laid particular stress on the necessity for saving by the individual, expressing the belief that the best way to build for the nation as

# WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. ounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is possoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a

# "Mother"

ONG after the romanticists have sung the final song on the Lo loves of the world, new arias are always in the air when it concerns Mother.

The strongest tie in the world is the tie between a mother and her boys and girls—and even though the serious things of life often make it appear as though those "children" are far away from her, Mothers' Day brings back thoughts of home poig-

On Mothers' Day this year—go home to her. Or if that is impossible, write her one of those letters she adores, or send her some little gift that you know she dotes on receiving.

## You Can't BE RIGHT if Your Stomach's WRONG

Many a Man Would Have Made More of a Success in Life if It Hadn't Been for a Bad Stomach

When your stomach starts "acting up," when you think you have Acidosis, Indigestion, Heart Burn, Sour Taste, or any of these symptoms, you are justified in suspecting Ulcers of the Stomach—for they are quite common now-a-days, and you had better start taking ULCICUR at once—else you may find yourself in the same bad fix as Dr. Bondy of Chicago. Dr. Bondy writes: "Was suddenly taken ill July 1st. In fact I had three memorrhages before I realized that I had an ulcer. I have always been skeptical when it came to taking 'patent med-icine,' but decided to give ULCICUR a trial. Noticed a great improvement after the first bottle, and was entirely cured after taking seven bottles. Am glad to recommend ULCICUR to anyone suffering from this ailment.'

(Signed) R. M. BONDY, D. D. S. N. Michigan Ave., Chicago, Ill. ULCICUR is recognized as the treatment most in demand for stomach ailments. It is compounded by The Ulcicur Co., Inc., 2642 S. Michigan Ave., Chicago, Illinois, and nearly every drug store carries it in stock continually, making it easy for you to try a bottle. If for any reason your nearest druggist happens to be without it, ask him to get a bottle for you.

## LOOK MUCH ALIKE -BUT THEY'RE NOT

Everyone KNOWS that cigarettes differ in taste -though they look much alike. Some are "kind to your throat," others "satisfy," others haven't a "cough in a carload." Everyone should know that gasolines differ too. Your motor senses the difference in gasolines just as your taste tells the difference in cigarettes.

Parco Ethyl Gasoline is colored red like other Ethyl gasolines. But therein the similarity ends. Parco Ethyl starts quicker, develops more power, more speed and more mileage than any gas you ever used. It is free of gum and sulphur. It is certified anti-knock. It is especially refined for the multiple cylinders, high speeds and high compression of present day motors.

But it has been found that adequate maternity care can save the four past national presidents of the out on every train their places were lives of 10,000 of the 16,000 mothers who die each year, according to Louis . Dublin, statistician of the Metropolitan Life Insurance Co., who studied the records of 4,726 mothers cared for by the Maternity Center Association and found that the mortality rate among them was only 2.2—less than Denmark's—one-third the rate for the United States as a

"The conclusion is inescapable that we can remove this national disgrace when, as a people we set out to do so," states Dr. Ralph W. Lobenstine. "An informed public opinion de-manding adequate maternity care is the condition precedent to improve-

National publicity is to be released to newspapers everywhere just before Mother's Day as well as on the day itself, but local persons speaking about local conditions are the most effective. The problem is not confined to any one section of the United States; it is everywhere. In 1912, the Children's Bureau by

an act of Congress and in 1921-29 the Sheppard Towner Act made available an appropriation of about one million dollars, to be divided among the states of the Union on a matching basis, with education service. Illinois was one of the states which refused this. Since '29 no Federal ppropriations was made because of aternalism—the attempt to supply he needs or regulate the conduct of a nation or community in the same way as a father does those of his hildren. Rural communities particurlarly need Federal aid to develop an adequate service.

Some districts in Montana have no Men And Women Everywhere Can

up to the chin, the waist to extend to the top of the hip and the skint Pink paper for the pantry shelves and bureau drawers, nicely put up in colls, 10c to 50c. B. F. Shaw Printing co.

Stolen goods, seized and retained by to the top of the knee to extend to the top of the knee to expiration of his term of office of his recap; one row of gold gilt police but-signation or removel therefrom, he tons on the breast having eight but-shall, on demand, surrender to his successor in office, all books, records, collar of one and three-quarters of AUTHOR OF THE MUSBand Municrete.

RERYL BORDEN, secretly in ove with TOMMY WILSON, disclope with her half-sister, IRENE. kidnap Tommy and take him into the country where she urges him to continue in college and not break the beart of his aunt who is financing him. Falling to convince him. Beryl lets Tommy return to her alster. Irene, enraged at the long wait, refuses to listen to his pleas and postpones the elopement.

Next day Tommy goes fishing with his uncle and finds Beryl and her gang on the beach. One of the boys, ANGIE REED, is carried out by the tide. Tommy and Beryl rescue him and call a doctor before taking him home. She finds it hard to bear the reproaches of MRS. ILEGED and her family and the sneers of her jealous sister.

When Tommy again begs frento marry him, she says she will not let marriage interfere with her career and informs him that she is to have a radio audition. NOW GO ON WITH THE STORY CHAPTER VIII

"I THINK." Mrs. Everett said to Beryl in the voice of one who copes with a hopeless situation. of you to go to your sister and see if there isn't something you can do for her. You know better than anyone else what an ordeal she has been through and with this audi really under a great strain." All the women looked at Beryl

For a moment defiance was plainly expressed in the flush that spread mon sense came to her rescue and saved her from making a scene. "And someone must cook din-

ner," her mother added suggestively. "Heaven knows I can't do everything and I'm sure Mrs. Reed glass of ice water. She studied needs me here. Someone must beryl for a moment with sly specu.

"If you're able to go upstairs and fetch it down here I'll wash it."

Beryl compromised. "I wouldn't career. I should like to forget make up to her for . . ."

"What's the trouble?" Charlie Reed's voice cut in as he made his It seemed to him that they all

tried to tell him at once but he turned to Beryl. She told him as "I don't know what I'm going to simply as she could what had hap | do. pened, neither accusing nor sparing herself.

beseechingly upon her husband's my feet."

"What?" he said, surprised. Then: "I guess what that young fellow needs is a lesson in sportsmanship. It wasn't playing fair to go in by himself while the others | morrow?" were busy," he added and strode "And you must sing in a yellow

injured feelings somewhat by criti-

cizing the food.
"Oh well," Beryl answered listtessly, "I didn't feel like cooking." "Mooning over someone?" Irene

asked maliciously.

Beryl nodded. "Someone I feel sorry for," she said sweetly, and Irene's intuition warned her to drop the subject. When Beryl spoke like that she was going to be cuttingly sarcastic, and Irene didn't want to lose her temper to the point of disclosing to Beryl what

she had in mind for her. But when she did speak of it, the next morning at breakfast, she met with opposition from an unexpected quarter. Beryl was away minding the store while Mr. Everett-who left the house before his wife or Irene were up-returned to breakfast with them.

On this occasion he seemed to be in a hurry. "Beryl tells me she's going to New York with you," he said to Irene. "Give me some more coffee if you've got some hot. Mother. I want to get back and finish the vegetable rack before Beryl leaves. If you'd come over and help," he began suggestively, again addressing himself to his younger daughter, only to be inter-

caused by violence. He said that Washington held that for a city of Chicago's size there should be an annual average of 10,-000 reports of investigations of deaths from unknown causes by the Coroner's office whereas under the present system of the Registrar handling such cases there are less

than 5,000 such investigations a year. The amendment, which has been passed by the House and now pending before the Senate, makes it mandatory on police and undertakers to report all deaths occuring without medical attendance to the Coroner, who is required to investigate and either hold an inquest or issue a burial certificate.

Machine Gunner To Marry His "Alibi"

Waukegan, Ill., May 6-(AP)-Jack McGurn, Capone machine gunner, stepped to Lake County's marriage license counter Sunday and obtained a certificate to wed Louise Rolfe,

the blonde who was his "alibi" when McGurn was sought for the murder of seven Moran gangsters in 1929. He gave his real name, Vincent Gebardi, age 28 and his intended

bride's at Louise Boex, 24.

Under another alias of James Demnory, the gangster was divorced in DuPage county court Saturday by Mrs. Helen C. Demnory, who was granted \$2,500 cash alimony and \$20 week for the support of their sixear-old daughter.

McGurn and his sweetheart obtained the license from Lou Hendee, Lake County Clerk, who keeps "oper house" at his home on Sundays to couples seeking licenses outside of office hours. The license had not been returned today and the time and place of the ceremony could not be
